

International Conference on Silk-roads Disaster Risk Reduction and Sustainable Development

May 11-12, 2019

Beijing International Convention Center, CHINA

SiDRR Conference 2019

Conference Website: <http://www.sidrr.com/>

Updated on March 12, 2019

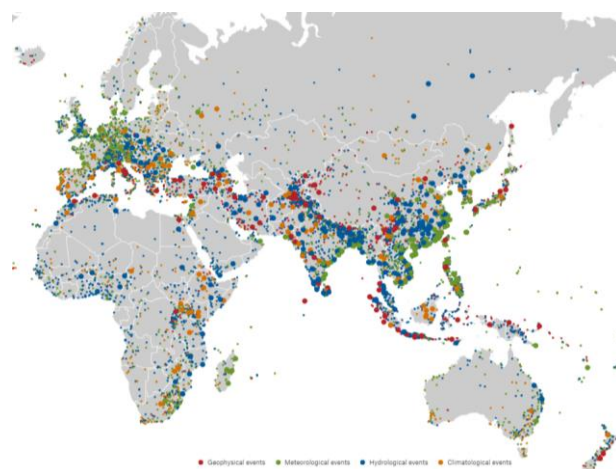

1. Background

The Silk Road, beginning in the Han Dynasty (207 BC-220 AD), crosses more than 70 countries and affects some 4.4 billion people (63% of the world).

For centuries, the Silk Road has played an essential role in connecting the East and the West, through the exchange of the trade, science, technology and civilization. However, due to active underlying geological structures, including rapid tectonic uplift, climate change, and natural hazards (e.g., earthquakes, landslides, floods, typhoons, tsunamis, etc.) that occur frequently, these conditions place threats on both social development and livelihoods along the Silk Road.

Furthermore, numerous challenges related to disaster risk reduction exist in this area, including a lack of background information and data sharing mechanism, as well as an absence of a scientific risk assessment method, and mitigation countermeasures etc.

Disaster events 1990-2017 (Source: NatCatSERVICE of Munich RE)

As a result of this serious situation and integrated with the **Sendai Framework for Disaster Risk Reduction** and the **Sustainable Development Goals 2030**, there is an urgent need to promote international cooperation in disaster risk reduction and sustainable development along the Silk Road. Resilience against natural hazards must be improved and an international platform for joint research and information sharing of the field is needed. Therefore, an international research program for the disaster risk reduction along the Silk Roads is being implemented under the umbrella of **SiDRR (Silk-roads Disaster Risk Reduction)** by Chinese Academy of Sciences.

The implementation of this program will enhance disaster prevention and will contribute to our ability to guarantee the security of livelihood of the affected countries. Based on this understanding, the Chinese Academy of Sciences, China Association for Science and Technology, United Nations Environment Programme, United Nations Office for Disaster Risk Reduction, and international scientific partners will jointly host the **International Conference on Silk-roads Disaster Risk Reduction and Sustainable Development (SiDRR Conference 2019)** in Beijing, on May 11-12, 2019.

2. Conference Theme

Theme:

Towards Safe, Green, and Resilient Silk Roads

Topics:

- Hazard information detection and data sharing
- Mechanisms and physical process
- Risk analysis and management
- Monitoring and early warning
- Disaster prevention and mitigation
- Emergency management and post-disaster reconstruction
- Cross-border disasters
- Sustainable development

Sessions:

	Organizers	Conveners	Session Themes
1	The Hong Kong University of Science and Technology & International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE)	Charles W. W. Ng	The Formation Process, Mechanism, and Treating Countermeasures of Landslides
2	The International Centre for Integrated Mountain Development (ICIMOD)	David Molden	Monitoring and Early Warning, Cross Border Disaster, Mountain Hazards
3	Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response, The Chinese University of Hong Kong	Emily Ying Yang Chan	Health-Emergency Disaster Risk Management
4	International Association for Engineering Geology and the Environment (IAEG)	Shengwen Qi; Haris Sarogou	Engineering Geology and Geological Engineering
5	Integrated Research on Disaster Risk (IRDR)	Qunli Han	Mobilization of International Science and Technology Collaboration on Disaster Risk Reduction (DRR)
6	Integrated Research on Disaster Risk (IRDR)	Qunli Han	Improving Policy and Science & Technology Interface in Disaster Risk Reduction (DRR)
7	International Water Resources Association (IWRA) Wuhan University	Jun Xia	Risk and Management of Water Disaster under Changing Environment
8	International Consortium on Landslides (ICL)	Peter Bobrowsky; Kyoji Sassa; Alexander Strom; Lijun Su	Advances in Landslide Risk Reduction

9	World Association for Sedimentation and Erosion Research (WASER)	Zhaoyin Wang; Cheng Liu	Sediment Transportation and Geo-hazard Mitigation
10	Institute of Mountain Hazard and Environment, CAS & Chinese Society of Soil and Water Conservation	Xiaoqing Chen; Alessandro Pasuto; Asif. Khan	Mountain Hazards
11	Beijing Normal University	Peijun Shi	Integrated Disaster Risk Governance - Assessment and Management
12	Institute for Disaster Management and Reconstruction (IDMR), Sichuan University-The Hong Kong Polytechnic University	Gretchen Kalonji	Models for Higher Education Collaboration on Natural Disaster Risk Reduction, Response, and Reconstruction
13	Institute of Geographic Sciences and Natural Resources Research, CAS	Weidong Liu; Linxiu Zhang	The Sustainable Development along Silk Roads
14	South China Sea Institute of Oceanology, CAS	Dongxiao Wang; Toshio Yamagata	Marine Observations and Hazards
15	Xinjiang Institute of Ecology and Geography, CAS Research Center for Ecology and Environment of Central Asia, CAS	Xi Chen	Climate Change and Disaster Prevention Technology in Eurasia Arid Zone (DPTUA)
16	Institute of Earth Environment, CAS	Zhisheng An; Sebastian Breitenbach; Liangcheng Tan	Paleoenvironmental Change and Disaster along the Silk Roads
17	Institute of Crustal Dynamics, China Earthquake Administration; Institute of Geophysics, China Earthquake Administration	Yuntai Chen; Xiwei Xu	The Geological and Geophysical Process, Mechanism, and Precaution Measures of Natural Earthquakes

18	Youth Innovation Promotion Association, CAS	Wei Yang; Hong Yan; Wei Zhao	Young Scientist Forum
19	IUGS Task Group on Geohazards (TGG)	Yasukuni Okubo; Kiichiro Kawamura	Societal Impacts of Geohazards
20	International Association for Mathematical Geosciences (IAMG)	Jennifer McKinley; Yong Ge	Disaster Monitoring and Risk Assessment
21	Institute of Cold Regions Science and Engineering Northeast Forestry University, China State Key Laboratory of Frozen Soil Engineering, China	Wei Shan; Huijun Jin; Ying Guo	Engineering and Environmental Geological Disasters in Permafrost Area
22	Institute of Geographic Sciences and Natural Resources Research, CAS International Knowledge Centre for Engineering Sciences and Technology under the Auspices of UNESCO (IKCEST)	Juanle Wang; Elena Grigorieva	Disaster Risk Reduction Knowledge Service

3. Milestone

October 20, 2018	On-line registration start
April 5, 2019	Deadline for abstract submission
April 20, 2019	Deadline for early bird registration
May 11-12, 2019	SiDRR Conference

4. Conference Form

The secretariat of the International Conference on Silk-roads Disaster Risk Reduction and Sustainable Development invites representatives from all the hosts, organizers and co-organizers, as well as renowned experts and researchers from all continents to participate in the Conference. The Conference will consist of plenary sessions and symposiums. We anticipate

some 500 participates.

5. Call for Extended Abstracts

We are pleased to invite you to be part of the SiDRR Conference 2019 by presenting your work related to all disciplines relevant to disasters, by submitting a two-page extended abstract of the respective presentation (Times New Roman 12 point font only). All submissions (extended abstract and the respective presentation) will be compiled and made available to attending participants.

Extended abstract should be submitted through the conference website (<http://www.sidrr.com/>) before April 5, 2019. Authors will be notified of all abstract acceptances no later than April 10, 2019. Note that the extended abstract submitted to SiDRR Conference 2019 will only be accepted after a rigorous peer-review process. Some of the selected extended abstract will be encouraged to expand their contribution into a journal paper and with a recommended for submission to international refereed journals.

6. Hosts, Sponsors and Organizers

Hosts:

Chinese Academy of Sciences (CAS)

China Association for Science and Technology (CAST)

United Nations Environment Programme (UNEP)

United Nations Office for Disaster Risk Reduction (UNISDR)

Sponsors:

International Union of Geological Sciences (IUGS)

International Geographical Union (IGU)

International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE)

International Association for Engineering Geology and the Environment (IAEG)

International Water Resources Association (IWRA)

International Consortium on Landslides (ICL)

International Association for Mathematical Geosciences (IAMG)

World Association for Sedimentation and Erosion Research (WASER)

The International Centre for Integrated Mountain Development (ICIMOD)

Research Center for Ecology and Environment of Central Asia, CAS

World Association of Soil and Water Conservation (WASWAC)

Organizers:

Institute of Mountain Hazards and Environment, CAS

Institute of Geographic Sciences and Natural Resources Research, CAS

Chinese Society of Soil and Water Conservation

The Hong Kong University of Science and Technology

Integrated Research on Disaster Risk (IRDR)

Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response (CCOUC), The Chinese University of Hong Kong

Beijing Normal University

Sichuan University

South China Sea Institute of Oceanology, CAS

Xinjiang Institute of Ecology and Geography, CAS

Institute of Earth Environment, CAS

Institute of Geophysics and Institute of Crustal Dynamics, China Earthquake Administration

Youth Innovation Promotion Association, CAS

7. Secretariats and Contacts

Secretary General: Professor Xiaoqing Chen

Conference Website: <http://www.sidrr.com/>

Conference Email: sidrr@imde.ac.cn

Contact persons
